## AWARDS & EXHIBITOR NETWORKING NIGHT

The Telstra Exhibitor Networking Night will be held in the Village Green (Baw Baw Pavilion) for all exhibitors at the conclusion of trading on Thursday 27th March (from 4:30pm). ## BIOLOGICAL HAZARDS

Biological hazards include bodily fluids, waste, sharps or first aid coverings. Biological hazards can cause risk to the public if the hazard is ingested, inhaled, absorbed or penetrated through the skin. Please report any biological hazards to the Lardner Park Office immediately.

# EXHIBITOR INFORMATION

## BIOSECURITY POLICY

Biosecurity is an important issue when exhibiting livestock. We have endeavoured to provide an environment as pest and disease free as possible. While we continue to maintain optimum practices, exhibitors are ultimately responsible for their own biosecurity. You should make your own risk assessment of Lardner Park facilities and act accordingly. The following advice from Animal Health Australia may assist:

*Responsibility for biosecurity doesn't end when your livestock leave the farm gate. By implementing good management practices in your farming operation, you'll be playing an important role in protecting your region, and possibly the entire industry, from devastating disease outbreaks. These practical measures will help ensure your biosecurity practices extend into the wider community:*

- Moving livestock off your property: make sure livestock are fit to travel before loading. Diseased/injured livestock should not be moved off property and if necessary, seek veterinary attention and supply an NVD/TSS and health declaration.

Livestock exhibitors should:

- Ensure pens/housing areas are clean before they enter
- Feed and water your livestock separately, if possible
- Never share equipment, if you must, always clean and disinfect before and after use
- Isolate any returning stock for 10 days to allow for weed seed elimination and signs of disease/pests

Further information can be found at <https://www.farmbiosecurity.com.au/>
